- ◆ Technical Training Development
- ◆ Maintenance Training
- ◆ Branding Development
- ◆ Much More....

BROKER SERVICES

Aeromantia's certified brokers are passionate about setting a standard of excellence in the aircraft sales and brokerage industry, while committed to abiding by a code of ethics of the highest moral standards. Our broker services offer the necessary utilities to buy or sell commercial aircraft, freighter aircraft, corporate aircraft, private aircraft, and turbine engines at the correct market value. We have the means necessary to let prospective buyers know of your product availability at the right time using our exclusive AERODEPOT™ network, through our extensive broker networks, ads in print magazines, Internet exposure, and brochure development.

Services Provided:

- ◆ Sellers Broker
- ◆ Buyers Broker
- ◆ Acquisition of Financing Assistance
- ◆ Acquisition of Insurance Assistance
- ◆ Much More....

MAINTENANCE MANAGEMENT

Take advantage of the benefits of having a maintenance management department without the overhead and additional costs associated with an in-house department. Allow Aeromantia to be your maintenance management department. Our maintenance management services ensure that our clients commercial or corporate aircrafts are in compliance with all regulatory requirements, are maintained to the highest safety standards, and maintain optimized asset value.

Services Provided:

- ◆ Technical Support and Engineering
- ◆ Maintenance Program Planning & Scheduling
- ◆ Reliability Monitoring & Management
- ◆ Technical Records Management
- ◆ Quality Assurance & Auditing
- ◆ Technical Document Management
- ◆ Maintenance Operations and Control
- ◆ Inventory Control Management
- ◆ Much More....

ASSET MANAGEMENT

Whether it's one aircraft or a whole fleet, we utilize our global contacts and extensive management and market knowledge to get the very best results for our clients and their business. Asset Management services are designed to manage use and disposal of assets, to make the most of asset service potential, optimize asset use and efficiency, optimize asset value, and manage risks and costs over asset entire lifecycle.

Services Provided:

- ◆ Full Lease Platform Services
- ◆ Contracts Management
- ◆ Maintenance Reserve Administration
- ◆ Warranty Administration
- ◆ Real Time Valuation of Operating Assets
- ◆ Risk Assessment Analysis
- ◆ Asset Sourcing Management
- ◆ Remarketing of Aircraft and Engines
- ◆ Much More...

VALUATION & APPRAISAL

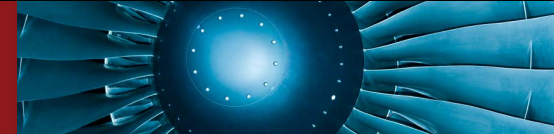

Our valuation & appraisal services are provided for commercial aircraft, freighter aircraft, corporate aircraft, private aircraft, and turbine engines. For the buyer, an appraisal is a valuable tool which verifies major selling points and can assist in expediting the sale of aircraft or engine. For the seller, an appraisal offers confidence of knowing the general condition and current fair market value as seen through the eyes of an independent third party. For the financial Institutions, an appraisal documents value and general condition of the asset, while supporting collateral position in the asset loan by verifying that the asset is what it is said to be.

Services Provided:

- ◆ Desktop Appraisals
- ◆ Extended Desktop Appraisals
- ◆ Full Appraisals
- ◆ Comprehensive Appraisals
- ◆ Financial Appraisals
- ◆ Real Time Portfolio Valuation Management

POWERPLANT MANAGEMENT

Aeromantia is a complete technical and financial powerplant management service provider, that serves turbine engine owners and operators with customized solutions that enables them to realize significant cost savings, operate their fleets optimally, and maintain optimized asset value. Allow Aeromantia to be your powerplant management department.

Services Provided:

- ◆ On & Off Wing Management
- ◆ Engine Condition Monitoring
- ◆ Technical Support & Engineering
- ◆ Technical Record Management
- ◆ Warranty & FOD Management
- ◆ Engine Shop Visit Management
- ◆ Engine Failure & BER Analysis
- ◆ Contract Reviews & Negotiations
- ◆ Purchase, Lease, and Sale Support
- ◆ Much More....
